EDUCATION

Faculty of Computers and Artificial Intelligence, Assiut National University

Assiut, Egypt

Bachelor's Degree in Artificial Intelligence

Expected Graduation, 2027

- **GPA:** 3.37/4.00
- **Related Coursework:** Machine Learning, Deep Learning, Artificial Intelligence, Neural Networks ,Data Structures & Algorithms, Database Systems, Statistics, Software Engineering

ACADEMIC & TRAINING EXPERIENCE

Digital Egypt Pioneers Initiative (DEPI)

Round 2

Artificial Intelligence & Data Science Track

- Completed intensive training in AI, Data Science, and Software Engineering.
- Developed multiple end-to-end machine learning projects in healthcare and analytics.
- Gained hands-on experience in Python, Machine Learning, Data Visualization, and deployment concepts.
- Worked in team-based projects using industry-style workflow.

PROJECTS

Healthcare Predictive Analytics

(DEPI)

Team Member

- Developed machine learning models to predict heart disease severity , Performed data preprocessing, feature engineering, and model evaluation
- Achieved strong performance using KNN and XGBoost models , Built an interactive Streamlit application for real-time prediction

HemaSense System

Team Lead

- Developed an intelligent CBC analysis system integrating Machine Learning (Decision Tree) with a FastAPI backend and web frontend , Built a patient management system with role-based access (Doctor / Secretary).
- Integrated a Medical AI chatbot using a Large Language Model for medical Q&A , Designed an offline MySQL database and automated medical report generation

Chocolate Sales Dashboard Project

Team Lead

- Developed an interactive dashboard using Dash and Plotly for sales data analysis.
- Visualized sales trends by product, country, and time periods .
- Built a responsive interface using Bootstrap and Python.

SKILLS

Programming: Python, JavaScript, HTML/CSS, SQL, MATLAB, C++, Java , FastAPI

Data Science & Machine Learning: Machine Learning (Supervised & Unsupervised Learning) , Neural Networks, Deep Learning Data Preprocessing , Feature Engineering , Model Evaluation & Optimization .

• **Libraries:** Pandas, NumPy , Scikit-learn

Data Visualization: Matplotlib , Seaborn , Plotly, Dash , Streamlit

Databases: MySQL , SQLite, Database Design

Tools & Platforms: Git , GitHub , Jupyter Notebook , VS Code

Personal Skills

Problem Solving , Communication Skills , Time Management .

Languages Arabic

Arabic: Advanced .

English: Good Experience .
